Table of contents

I. Stages in a child’s artistic evolution ................................................. 11
   1.1. Scrawling period (forming the shape) – up to 3 years of age ..... 12
   1.2. Schematic period (ideo art) – 6 to 12-year-old children .......... 14
   1.3. Post-schematic period (physio art) – 12-year-old children and up 16

II. Selected Aspect of Child’s Development in early childhood .......... 19
   2.1. Physical and motor development in early childhood ............... 19
   2.2. Development of speech in early childhood ................................. 20
   2.3. Development of thinking in early childhood .............................. 21
   2.4. Development of attention in early childhood ............................ 23
   2.5. Development of memory in early childhood ............................. 23
   2.6. Development of imagination in early childhood ..................... 24
   2.7. The development of perception in early childhood .................. 25
   2.8. Emotional development in early childhood .............................. 26

III. Selected Aspect of Child’s Development of three-year-old children ............................................................................................... 29
   3.1. Specific features of the development of three-year-old children .. 29
   3.2. Features of cognitive development of three-year-old children ... 29
   3.3. Features of the development of impressions and observations of three-year-old children ......................................................... 30
   3.4. Features of the development of attention, imagination and memory of three-year-old children .................................................. 31
   3.5. Features of the development of thinking of three-year-old children ......................................................................................... 32
   3.6. Features of the development of speech of three-year-old children 33
   3.7. Features of the emotional and social development of three-year-old children ........................................................................... 35
   3.8. Physical development of three-year-old children ..................... 38

IV. Selected Aspect of Child’s Development of a Six-Year-Old Child ........................................................................................................... 41
   1.1. Human Personality Development of a six-year-old child .......... 41
   4.2. Psychophysical profile of a preschool of a six-year-old child ..... 42
   4.3. Physical and Motor Development of a six-year-old child .......... 43
   4.4. Determinants of human development of a six-year-old child...... 46
   4.5. Activity of a six-year-old child .................................................. 47
V. Role of a teacher in developing visual art activity in children ......................................................... 52
5.1. Artistic creativity in children at preschool age ................................................................. 52
5.2. Artistic education of preschool children ....................................................................... 57
5.3. Integration of art with other activities ............................................................................. 66
5.4. Didactic means used in an art class ................................................................................. 68
5.5. Using children’s artistic creativity in diagnosis and therapy ........................................ 70
5.6. Computer in artistic education ....................................................................................... 74

VI. The role of art in a child’s development .............................................................................. 79
6.1. Influence of children’s artistic activity on their motor development ................................... 79
6.2. Influence of children’s artistic activity on the development of perception ....................... 81
6.3. Influence of children’s artistic activity on their emotional development ....................... 82
6.4. Influence of children’s artistic activity on their intellectual development ....................... 83
6.5. Influence of children’s artistic activity on their aesthetic development .......................... 84
6.6. Influence of children’s artistic activity on their social development .................................. 85

VII. Artistic techniques in the activity of preschool children .................................................. 88
7.1. Drawing Techniques ........................................................................................................... 90
7.2. Painting techniques .......................................................................................................... 91
7.3. Graphic techniques ......................................................................................................... 93
7.4. Techniques spatial .......................................................................................................... 94
7.5. Other techniques ............................................................................................................ 95
7.6. Mandala in children’s visual art activity .......................................................................... 96
7.7. Sample mandalas for children ....................................................................................... 99

VIII. Visual art in kindergarten ........................................................................................................ 105
8.1. Teaching innovation – Kindergarten No. 25 in Tychy ................................................ 105
8.2. Toyless Kindergarten jako element innowacyjnej aktywności plastycznej ...................... 119
8.3. Test – Form – an interview with parents/guardians .................................................... 121

IX. A child education – selected areas of research .................................................................... 133
9.1. Diagnosis of the level of school readiness in preprimary education institutions ............ 133
9.2. Measuring school readiness of a child starting school .................................................. 141
9.3. The computer in artistic activities as an element developing pre-school children’s creative attitude ......................................................... 149
