

New from ETS! The TOEFL® Junior™ test

English has become the language of global opportunity. In order for your students to gain access to the widest range of educational, personal and professional opportunities possible, they need English-language skills to succeed — at your institution and beyond. But how do you know your students are acquiring these skills?

Prepare us for success

Introducing the TOEFL Junior test, a Global Assessment of Middle School-level English-Language Proficiency

With language instruction beginning at earlier ages, the need for a well-designed, objective measure of English-language proficiency for younger students is more important than ever.

The TOEFL® Junior™ test is a low-stakes assessment designed to measure the degree to which students have attained proficiency in both academic and social English representative of English-medium instructional environments.

Designed for middle school students for whom English is a foreign language, the TOEFL Junior test:

- Measures listening and reading ability as well as knowledge of grammar and vocabulary in context
- Provides objective information about a student's progress in developing English-language skills over time
- Helps support placement of students into programs designed to increase English proficiency
- Delivers useful information at the sub-score level that can help inform instruction and learning
- Measures developing English-language skills in preparation of future studies in English

The TOEFL® Junior™ test at a glance

- Currently available in paper-and-pencil format
- Listening Comprehension section: 42 questions
- Language Form and Meaning section: 42 questions
- Reading Comprehension section: 42 questions
- Total Test Time: 110 minutes
- Scored using ETS's highest standards of quality and fairness

★ Discover potential. Expand global opportunity.

How can we improve our reading ability?

Measures the Skills Your Students Need to Succeed at Your Institution — and Beyond

The *TOEFL Junior* test is a distinct product within the growing *TOEFL*® family of English-language assessments. While ETS's university-level *TOEFL iBT*® test sets the standard for the measurement of academic English proficiency worldwide, the *TOEFL Junior* test is the appropriate assessment for younger students in English-medium instructional environments. It measures students' English-language proficiency in three key areas.

- 1. Listening Comprehension:** The ability to listen for basic interpersonal, instructional and academic purposes
- 2. Language Form and Meaning:** The ability to demonstrate proficiency in key language skills, such as grammar and vocabulary in context
- 3. Reading Comprehension:** The ability to read and comprehend both academic and nonacademic texts

Improve Decisions, Measure Student Progress

With this new assessment, you'll have one more piece of information to help widen your enrollment pool, improve student placement decisions and gauge student progress. The *TOEFL Junior* test also can help your institution stay competitive by providing the objective feedback it needs to inform instruction — so you can deliver the highest level of English instruction to your students.

By reading.

The advice is simple. However, finding the best books for practice can be difficult. Without help, students might choose a book that is too hard or too easy. This may keep your students from practicing effectively.

Lexile® measures help find the right books at the right level.

Lexile measures put the ability of readers and the difficulty of texts on the same scale. The *TOEFL Junior* score report includes a Lexile measure to help students find books that may improve reading ability.

Follow these four easy steps to find the right books at the right level:

1. Go to www.lexile.com/toefljunior
2. Enter the Lexile measure from the student's *TOEFL Junior* score report
3. Browse the Lexile library to find books at the right level
4. Build a book list for effective reading practice
