

Scientific achievements and scientific activity of the student		Number of points	Person confirming the scientific activity
1. Science clubs	1) The student is an active member of the Board of the science club or student is an active member of the science club	5-20 points. 5-10 points.	Science club supervisor
	2) The student actively participates in research projects of the science club	5-10 points for each project (but not more than 20 points)	
	3) The Student is the organizer of seminars/conferences provided for in the work schedule of the science club	5-20 points.	
	4) The student has written and delivered a paper at a seminar/conference organized by the science club	5-10 points for each paper (but not more than 20 points)	
	5) The student has written and delivered a paper at the science club forum	1-5 points for each paper (but not more than 10 points)	
		A total of not more than 50 points.	
2. Scientific conferences	1) Preparation of a scientific paper, which was delivered at:		Student's scientific supervisor
	a) a scientific conference at the University	5-30 points.	
	b) a scientific conference outside the University	5-40 points.	
		A total of not more than 40 points.	
3. Research	1) Conducting research under the supervision of a scientific supervisor. Participation in own and statutory research, research projects conducted in departments or other research teams (the number of points depends on the degree of contribution and independence of the student):		Student's scientific supervisor /head of the department/ project scientific supervisor
	a) participation of the student in the first stage of the research process (research assumptions, design of research tools)	5-20 points.	
	b) participation of a student in the second stage of the research process (an information collection process)	5-20 points.	
	c) participation of a student in the third and fourth stages of the process (result analysis and presentation)	5-20 points.	
		A total of not more than 60 points.	

4. Foreign scholarships	1) Foreign study scholarship (the number of points depends on: duration of the stay, completed courses)	5-20 points.	Dean
	2) Foreign research scholarship (the opinion of the student's scientific supervisor from the host university should be presented)	5-30 points.	
		A total of not more than 50 points.	
5. Scientific publications	1) Preparation of a scientific publication which:		Student's scientific supervisor
	a) has been accepted for printing or has been published in Polish-language publishing house	20-30 points.	
	b) has been accepted for printing or has been published in a foreign-language publishing house	30-40 points.	
		A total of not more than 70 points.	
6. More than one field of study or specialization	1) The student studies more than one field of study at WSB University	15 points. for each additional field of study	Head of the Dean's Office
	2) The student studies more than one specialization at WSB University	10 points. for each additional specialization	
		A total of not more than 25 points.	
7. University, national or international scientific competitions	1) Participation in a national or international competition (the number of points depends on the rank of the competition, the conformity of the competition subject with the university profile):		Vice-Rector for Student Affairs on the basis of a document confirming student's achievements
	a) The student has been a winner or has been in a team of winners (places 1-3)	5-30 points.	
	b) the student has not been a winner	5-15 points.	
	2) Participation in a university competition organized by WSB University:		
	a) The student has been a winner or has been in a team of winners (places 1-3)	5-20 points.	
	b) the student has not been a winner	5-10 points.	
		A total of not more than 75 points.	
8. Other scientific, research and development projects	1) Initiating, organizing and coordinating projects, programs, campaigns, and training aimed at involving the student community in the activity aimed at:		Vice-Rector for Student Affairs
	a) improving qualifications and lifelong learning	5-30 points.	
	b) popularizing and promoting science, culture and arts	5-30 points.	
		A total of not more than 60 points.
