semester	I	II		III		IV	
Full-time studies (L/C/lab/pr/e)		6					
Part-time studies (L/C/lab/pr/e)							
CLASS LANGUAGE	English						
LECTURER	mgr Maria Rzepecka						
FORM	Lecture (L)						
COURSE OBJECTIVES	The aim of the course is to provide students with theoretical knowledge and practical understanding of key concepts, tools, and communication principles used in organizational problem solving. Students will learn how to analyze processes, identify root causes, and generate effective, data-driven solutions using methods such as Lean, the Ishikawa diagram, the 5Why method, and the Pareto principle. The course also develops students' awareness of teamwork dynamics, communication barriers, and the importance of cultural sensitivity in collaborative problem-solving contexts.						
Reference to learning outcomes	Description of learning outcomes						
Field-related learning outcome EFMD	Description of learning outcomes		Teaching and learning methods		Verification of learning outcomes		
Knowledge							

Business analysis and research methods	Students know and understand the function concepts and tools used in problem solorganizations, including Lean principles diagram, 5Why method, and the Pareto Students know the stages and principle conducting facilitated workshops and u creative techniques for generating solubrainstorming and reverse brainstorming. Students understand the importance of communication barriers and teamwork problem solving in an organizational contraction.	ving within s, Ishikawa o principle. es of inderstands tions, such as ig. in effective	Teaching methods: - Lecture  Learning methods: -Individual learning supported by digital tools - Written test	Grading the test based on a predefined scoring scale	
Intercultural Communication and Interpersonal Skills	The student knows and understands the principles of designing culturally sensitive solutions that promote inclusivity, equity, and collaboration in diverse organizational environments.  The student knows communication techniques used in intercultural contexts, such as feedback, negotiation, and conflict resolution, and understands		Teaching methods: - Lecture	Discussion observation	
LO7 LO8 LO9	the significance of cultural norms and communication styles for effective team problem solving.  The student knows and understands the of effective team collaboration, particular culturally diverse teams, including the incommunication strategies, team dynam effective contribution to joint tasks.	e principles arly in mportance of	Learning methods: - Small groups discussions	000011441011	
	Skills	& Attitudes			
Intercultural Communication and Interpersonal Skills	The student demonstrates openness and respect towards different cultural perspectives and communication styles, recognizing their value in collaborative problem solving and decision-making in diverse teams		Teaching methods: - Lecture	Discussion	
LO7 LO8 LO9	The student shows responsibility for co inclusive and effective teamwork, active in respectful communication and suppo constructive dialogue in culturally varied organizational settings.	ely engaging orting d	Learning methods: - Small group discussions	observation
