NEWSLETTER

• JUNE 2026

Dear Partners and Friends,

We are proud to share highlights from a very significant event for our project. Today, we are focusing on our recent participation in a key event dedicated to construction site safety, which perfectly aligns with the mission of the REBUILD project.

REBUILD Marks World Occupational Health and Safety Days in Bologna

April 28th, 2026 • Bologna, Italy

Akademia WSB
WSB University

CONSTRUCT 2
CONSTRUCTION COLLEGE

REBUILD AT THE “SAFE CONSTRUCTION SITES” CONFERENCE

To mark the World Occupational Health and Safety Days on April 28th, 2026, the REBUILD project participated in the “Safe Construction Sites” conference in Bologna. This initiative was promoted by IIPLE in collaboration with INAIL and FORMEDIL.

KEY TOPICS ADDRESSED INCLUDED:

- **Supervision and Assistance:** Best practices for managing safety.
- **Accident Prevention:** Insights into trends in the Bologna area.
- **Institutional Role:** How INAIL promotes safety at work.
- **Regulatory Updates:** Credit-based licensing systems.

THE REBUILD MISSION: SAFETY AND EXPERTISE

REBUILD – “Capacity Building Program for Sustainable Reconstruction” is dedicated to strengthening the skills of trainers and professionals through:

- **Sustainable Reconstruction & Resilience:** Preparing for extreme events.
- **Green & Digital Transition:** Integrating modern solutions.

- **Culture of Prevention:** Promoting high safety standards.

UPCOMING EVENT: STUDY VISIT IN GEORGIA

UPCOMING EVENT

STUDY VISIT IN GEORGIA

REBUILD partners will gather in Georgia for an international Study Visit to explore best practices in sustainable reconstruction, vocational training, and innovation in the construction sector.

**9–11
JUNE 2026**

**TBILISI & KUTAI SI
GEORGIA**

**COORDINATION
MEETINGS**

**TECHNICAL
VISITS**

**CULTURAL
HERITAGE**

**WORKSHOPS &
KNOWLEDGE
EXCHANGE**

**STRONGER
TOGETHER**

From **9–11 June 2026**, REBUILD project partners will gather in **Tbilisi and Kutaisi, Georgia**, for the next international Study Visit.

HIGHLIGHTS OF THE PROGRAM

 MEAMA FACTORY Modern industrial facility in Georgia.	 OLD TBILISI DISTRICT Heritage architecture blending tradition and modern life. COLLEGE 'SPECTRI' Exchange of best practices in vocational education.
---	---	---	--	--	--

The visit will provide an opportunity to explore local experiences and best practices related to:

- Sustainable reconstruction and urban resilience
- Green and digital solutions in the construction sector
- Vocational education and training (VET) approaches

- Knowledge exchange between project partners and local stakeholders

The Study Visit represents an important step in strengthening cooperation among partner countries and supporting the development of innovative training materials and methodologies within the REBUILD project.

INTERNATIONAL COOPERATION

REBUILD is a collaborative project bringing together partners from Italy, Poland, Austria, Georgia, Moldova, and Ukraine. Through this partnership, we share best practices to elevate quality and safety standards across the construction sector.
